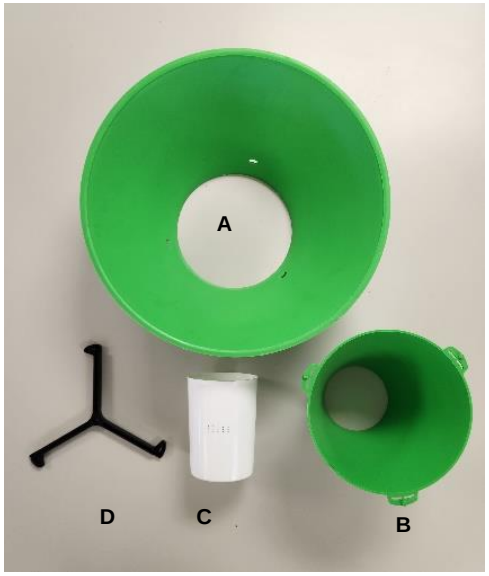
Synergy Multitrap System - Pan Trap Assembly Instructions

Components & Hardware:

A. 1 x Allison Collar
B. 1 x Funnel
C. 1 x Cup
D. 1 x Y-Brace
E. 1 x Wing Nut
F. 3 x Long Strap
G. 1 x Hanger Assembly
H. 1 x Hanger Wire

Trap Color Options

**Note: Item G comes pre-assembled at our facility with medium strength Loctite and includes a threaded rod, coupling, eye-bolt and flange nut.*



Final assembly:

1. – Y-Brace and Collar Attachment

1. Connect one end of the 3 long straps (F) through the Y-brace (D) with the push tabs facing outward.
2. Push the other side of the 3 long straps (F) ends through the Allison collar (A).

Step 2 – Funnel and Cup Attachment

1. Insert the cup (C) into the funnel (B) and secure by pulling through.
2. Insert the 3 long straps (F) protruding through the Allison collar (A) into the receivers on the funnel (B) making sure they connect on the common side of the 2 slots at each of the 3 locations on the funnel.

3. – Rod and Hanger Attachment

1. Insert the hanger assembly (G) through the top center hole of the Y-brace (D) and connect with wing nut (E) until secure.
2. The hanger wire (H) is optional and convenient when other means of hanging the trap are unavailable.

4. – Completed Assembly

1. Final assembly should resemble the image.

Lure Placement

1. For optimal lure placement, attach the lures either to the hanger assembly (G), or one of the long straps (F)
